SSEN will be undertaking some work to replace a rotten pole on their network which will involve the use of temporary traffic lights at the junction of Wareham Road and Corfe View Road. This work is planned for 2 days from 09:00 on 21st June 2021 to 15:30 on 22nd June 2021.

These works are essential to maintain the continuity of supply and the safety of the network.

The parking area outside of 135 Wareham Road up to and including outside of CO-OP and the pedestrian crossing will also be unavailable.

SSEN have contacted Morebus and they will be closing their bus stop on the north bound side of Wareham Road opposite Chinese Whispers and will be installing a temporary stop in a different safe location.

The plan below shows the temporary traffic management which will be in place.
